

LOOKING FOR A BETTER WAY TO REINFORCE DRYWALL CORNERS?

PROBEAD™

Flexible metal corner tape
The Right Bead for EVERY corner!

PROBEAD™

ProBead™ Drywall corner bead tape is specially designed for finishing and reinforce inside and outside drywall corners.

Paper Faced Metal Corner bead tape is specially designed for finishing inside and outside drywall corners. ProBead™ are manufactured with two steel strips combining with to a strong paper tape covering. The corrosion resistant metal provides excellent impact resistance, edge cracking and chipping, that stay smooth despite the stresses of normal building movement and everyday wear-and-tear.

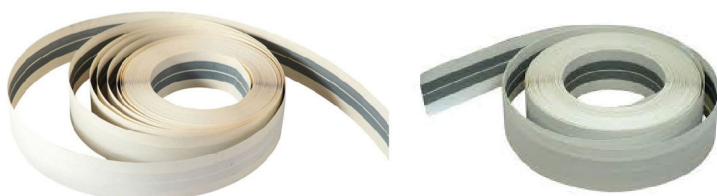

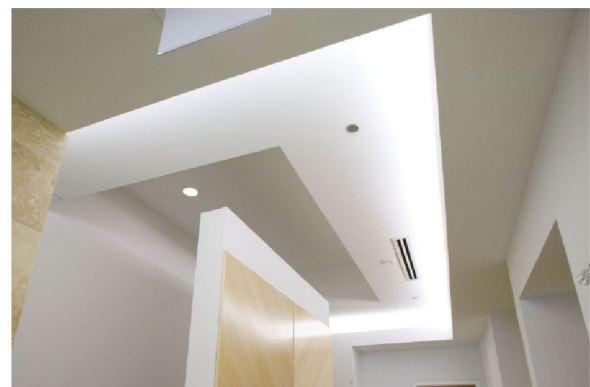

Product Use:

ProBead™ is mainly for corner reinforcement it gives straight, strong corners and can also be used on archways, curves and is ideal for non 90".

Product Application:

ProBead™ is a new and innovative way to reinforce the drywall corners and it is fast and easy to install by using ProFiller, no nails, screws, or any special tools required.

APPLICATION INSTRUCTIONS:

Step 1

Cut it with tin snips

Step 2

Spread a thick layer of ProFiller

Step 3

Mist the Corner Tape for better bonding.

Step 4

Position and press the Corner Tape into the ProFiller Compound.

Step 5

Wipe and smooth off excess joint compound & press the edges to ensure better bonding.

Step 6

Check the corner with the blade.

Step 7 (Final Step)

Apply another coat of joint compound. Let it dry and smooth it with the sand paper

Special knife for better and more smooth outside corner
